

Po-Ren Hsueh

National Taiwan University College of Medicine, Taiwan

Doctor Hsueh is Professor in the Departments of Laboratory Medicine and Internal Medicine at the National Taiwan University College of Medicine (NTUCM). After graduation from NTUCM, he completed several years of clinical internship and residency, specializing in clinical microbiology and infectious diseases. Throughout his career, Professor Hsueh has held president positions in several local and international societies, including Asia-Pacific Society of Clinical Microbiology and Infection (APSCMI), Global Chinese Association of Clinical Microbiology and Infection (GCACMID), Infection Control Society of Taiwan (ICST), Taiwan Society of Microbiology (TSM). He has served as a member of Scientific Program Committee of several international Congresses, including International Congress of Antimicrobial Chemotherapy (ICC), ASM Microbe, European Congress of Clinical Microbiology and Infectious Diseases (ECCMID) and other regional congresses on infectious diseases and clinical microbiology.

Professor Hsueh is currently president of Taiwan Society of Clinical Pathology and Laboratory Medicine (TSCPaLM), the secretary-general of Asian Society of Clinical Pathology and Laboratory Medicine (ASCPaLM), the president of the International Society of Antimicrobial Chemotherapy (ISAC), and executive committee member of The Infectious Diseases Society of Taiwan (IDST). He is also the Editor-in-Chief of Journal of Microbiology, Immunology, and Infection (JMII), Section Editor of International Journal Antimicrobial Agents (IJAA), funding editor of Journal of Global Antimicrobial Resistance (JGAR), and sits on the editorial board of several prestigious journals, and acted as a reviewer for more than 50 journals. His major research interests include epidemiology and mechanisms of antimicrobial resistance (bacteria, mycobacteria, and fungi), molecular epidemiology of emerging pathogens, molecular diagnosis of infectious agents, and infection control. Professor Hsueh has authored more than 900 original and review articles.
