

- **Name:** Sollip Kim

- **Current Position:**

Ilsan Paik Hospital, Inje Univ., Laboratory Medicine, Associate professor

- **Country:** Korea

- **Educational Background:**

Ph.D. at Ulsan University, College of Medicine, 2012

Master degree at Ulsan University, College of Medicine, 2008

M.D. at Korea University, College of Medicine, 2004

- **Professional Experiences:**

April 2018~Now: Ilsan Paik Hospital, Inje Univ., Laboratory Medicine, Associate professor

March 2011~March 2018: Ilsan Paik Hospital, Inje Univ., Laboratory Medicine, Assistant professor

September 2016~August 2017: University of California San Diego, Pathology, Visiting Scholar

March 2010~February 2011: Asan Medical Center, Univ. of Ulsan, College of Medicine, Department of Laboratory Medicine, Fellowship

March 2009~February 2010: Samsung Medical Center, Univ. of Sungkyunkwan Univ. School of Medicine, Department of Laboratory Medicine and Genetics, Fellowship

March 2005~February 2009: Asan Medical Center, Univ. of Ulsan, College of Medicine, Department of Laboratory Medicine, Residency

March 2004~February 2005: Asan Medical Center, Univ. of Ulsan, College of Medicine, Department of Laboratory Medicine, Internship

- **Professional Organizations**

Korea Society of Laboratory Medicine; Member, Insurance Committee

Korea Society of Clinical Chemistry; Member, Education/Academic/Insurance Committee

• **Main Scientific Publications:**

Clinical Pharmacogenetic Testing and Application: Laboratory Medicine Clinical Practice Guidelines.

Kim S, Yun YM, Chae HJ, Cho HJ, Ji M, Kim IS, Wee KA, Lee W, Song SH, Woo HI, Lee SY, Chun S. Ann Lab Med. 2017 Mar;37(2):180-193.

ANNALS EXPRESS: Measurement of serum 3-epi-25-hydroxyvitamin D3, 25-hydroxyvitamin D3, and 25-hydroxyvitamin D2 in infant, pediatric, and adolescent populations of Korea using ultra-performance liquid chromatography-tandem mass spectrometry (UPLC-MS/MS).

Cho SE[†], **Kim S**[†], Kim YD, Lee H, Seo DH, Song J, Um TH, Cho CR, Kim NH, Hwang JH. Ann Clin Biochem. 2016 Sep 9. [Epub ahead of print]

Is plasma neutrophil gelatinase-associated lipocalin a predictive biomarker for acute kidney injury in sepsis patients? A systematic review and meta-analysis.

Kim S, Kim HJ, Ahn HS, Song JY, Um TH, Cho CR, Jung H, Koo HK, Park JH, Lee SS, Park HK. J Crit Care. 2016 Jun;33:213-23. Epub 2016 Feb 26.

False-positive elevation of creatine kinase MB mass concentrations caused by macromolecules in a patient who underwent nephrectomy for renal cell carcinoma.
